MARC Serializer

Importer Description Importer Properties Import Options

This importer will serialize individual bib records from a marc file into one text file per bib. The bib id number will be used to name the output file.

Optionally, a file of bib ids may be provided to the importer to select only specific bibs to be serialized. If no file is provided, all bibs will be output.

Import File

Optionally, a file of bib ids may be provided to the importer to select only specific bibs to be serialized. If no file is provided, all bibs will be output.
