Draft a new release

## Latest release

 v2.0.5 df13163

## Remove dc.date.created check from the Ingest Folder Create

Edit

 terrywbrady released this 7 days ago · 1 commit to master since this release

This test was specific to GU's ingest standards. Moved this check into a specialized version of this rule.

## Improve formatting of dc.subject.lcsh in ProQuest ETD conversions

Edit

 terrywbrady released this 20 days ago · 2 commits to master since this release

Some codes need to generate multiple dc.subject.lcsh elements.

Change the separator character from "; " to " -- ".

## ProQuest Zip Create - Handle Bad Zip Input

Edit

 terrywbrady released this on Aug 21, 2014 · 6 commits to master since this release

Identify common problems in input zip files.

1. Root directory does not contain ProQuest XML
2. Ignore \_\_MACOSX and .DS\_Store from zip files

## Include Multi-Parser Import Rule

[Edit](#) terrywbrady released this on Apr 1, 2014 · 19 commits to master since this release

*Note: This release requires Java 7 to compile and to run.*

This released introduced the Multi-Parser Import Rule that allows a series of regular expression patterns to be applied to a file.

## File Analyzer - Last Java 6 compatible version

[Edit](#) terrywbrady released this on Mar 31, 2014 · 23 commits to master since this release

The next version of the File Analyzer will introduce a Java 7 compile dependency. If your runtime environment does not support Java 7, use this release.
