

User interface overview

Terry Brady edited this page on Aug 18, 2014 · 26 revisions

Edit

New Page

This page describes the use of the File Analyzer.

- User Interface - Search the File System
- User Interface - Import Records from a File
- User Interface - Watching a Task in Progress
- User Interface - Viewing Results
- User Interface - Merging and Comparing Results

Batch operations

These operations were utilized in an earlier instance of the File Analyzer and have not been exercised in some time. Some refactoring may be needed to fully utilize these features.

- Launch multiple tasks from the User Interface to perform [Batch Processing](#)
- The File Analyzer can also be invoked from a [Command Line Interface](#)

+ Add a custom footer
